

PUBLIC NOTICE

The IPA wishes to advise its valued clients, stakeholders and the general public that its online registry system is still down.

Given the technicality of the issue and the restoration process/time required, this process is taking longer to be fully restored. Our service providers in-country and abroad are working around the clock to fix the problem.

On that note, we would like to advise clients on the following undertakings by IPA through the Office of the Registrar of Companies;

- IPA will accordingly deal with filings that were due for filing during the period when the system was down. We will require appropriate proofs for this purpose.
- IPA will give priority to queries lodged with the office during the period the system was down.

We sincerely apologize for any inconveniences this may cause and request your utmost understanding at this time.

Should you require any further information, please contact us on **3084443**, **3084494**, **3084495** and **3084496** or email us on ggonline@ipa.gov.pg.

Thank you.

CLARENCE M. HOOT
Acting Managing Director
